USAGE Reports on Hungary

The attached raw USAGE reports listed below are being forwarded for your evaluation and critical judgment. They represent the first results of USAGE's re-orientation towards the southeast. Not being specialists on Hungarian affairs, we ourselves are not in a position to determine the value of these reports. However, from a reports' point of view, they leave much to be desired. Obviously USAGE needs a great deal of operational and reporting guidance. Delineation of Hungarian and Balkan targets, specific and general, would help all concerned.
